WORK EXPERIENCE

Cress Creek Country Club

Naperville, IL

Bartender, May 2008 – October 2019

- Responsible for keeping members happy through excellent customer service.
- Have built a loyal clientele of regulars and their guests through attention to detail and communication.
- Prioritized and juggled dozens of simultaneous responsibilities.

Day Trader, Self-Employed

Naperville, IL

Trader, June 2009 – June 2014

- Analyze market conditions to determine optimum times to execute securities transactions.
- Review financial periodicals, business publications, or other material to identify potential investments and keep abreast of trends affecting market conditions.

Anthem Blue Cross and Blue Shield

Mason, OH

Intern, Marketing Communications, June 2005 – August 2005 and May 2006 – August 2006

- Opened and closed the different marketing projects.
- Helped with communications between the clients and the marketing designers for the various projects.
- Managed projects for clients, and informed clients about the brand image and the capabilities that could be produced.
- Trafficked projects to the right coordinators and designers or writers and informed them on due dates.

PROJECTS

Amazon Clone: ReactJS. A clone of the homepage of Amazon's web app, deployed using Firebase. Created a database for the items being sold within the site and used Stripe to allow credit card payments. View website: <https://challenge-20d6d.web.app/>

COVID-19 Tracker: ReactJS. A web app to see the COVID-19 cases around the world. Used Leaflet and ChartJS to create a map of the world and line graphs for cases. The data came from the disease.sh API. View website <https://covid-tracker-45a19.web.app/>

E-Commerce: ReactJS, Redux, MERN. An e-commerce site that includes user registration and login to store user information, and information can be edited and updated. Pages to view all products, a single product, shopping cart, order history (all orders and single orders). Redux is used to help maintain the state, and PayPal developer is used allow secure payments.

EDUCATION

Coding Dojo

Chicago, IL

October 2019 – February 2020

- Intensive 18-week coding boot camp where I spent over 1200 hours of coding coursework learning Web Fundamentals: HTML, CSS and JavaScript and then four full stacks: Python/Django, C#/.NET, MEAN, MERN as well utilizing different frameworks and technologies.

College of DuPage

Glen Ellyn, IL

Courses: Real Estate

Miami University

Oxford, OH

Concentration: Finance and Economics
